

Admission Process

At Aurum Prep, we are committed to serving all children with a quality, tuition-free education. We do not discriminate upon the basis of race, sex, gender, sexual orientation, ability, religion, or ethnicity or any other protected status. All families will be required to complete an application form that only requests information pertaining to the student's name, grade, sex, and contact information. Aurum Prep does not discriminate in its admission and enrollment practices against students having or suspected to have disabilities. If we receive more applications to our school than we have seats available, we will conduct a lottery. All students not drawn during the lottery will go onto a waiting list in chronological order. After the founding year, applications will be available year-round.
